

We are happy to share our 2nd summer internship opportunities on Robotics. RobotCraft is a two months intensive internship and summer-course programme. After the tremendous success of the first edition, RobotCraft's second edition is coming in the summer of 2017. Last year, we received 65 students coming from all around World! You can see photos and videos from last year experience in our webpage, as well as some additional information: robotcraft.ingeniarius.pt

Ingeniarius, Ltd. is an experienced engineering company located in Coimbra, Portugal. Ingeniarius aims for research and technological development in the many fields of engineering, including robotics and automation, as well as all components within human society, namely the quality of life, sports and health.

Ingeniarius provides internship mobility and a unique summer course, as an innovative and hands-on collective internship in robotics, with or without Erasmus+ Internship mobility. For only **275€**, the students attending this 2-months program will have the opportunity to work on robotics, focusing on several state-of-the-art approaches and technologies. The summer course, entitled as the **2nd Robotics Craftmanship International Academy (RobotCraft 2017)**, will provide a general overview of the science and art behind robotics, teaching the basis around the Arduino programming and the ROS framework. Students will learn how to design, build and program their robots throughout multiple crafts, carefully prepared to provide a wide range of skills and knowledge in the topic.

Ingeniarius assembled a team, under the **RobotCraft** brand, to help students in finding a place to stay and also assisting them in the visa process. If students face any problems before, during, or after the internship program, they can contact the RobotCraft team.

We also provide discount with sponsorship agreement with **ESN Trabzon, University of Coimbra students**, and students with ESN Card, which can all enroll for only **200 €**.

We kindly ask you to send this e-mail to the relevant departments and students. Thank you for your interest!
