

## Press Release: Launch of Erasmusintern.org

BRUSSELS, Belgium – 8th of October 2014 – ESN launched ErasmusIntern.org

The Erasmus Student Network is happy to announce the launch of Erasmusintern.org this brand new, non-for-profit web platform provides an integrated marketplace that aims at bringing together internationally minded internship providers and individuals seeking an internship opportunity abroad.

Erasmusintern.org gives students the opportunity to create their profiles and add their key competences such as Education and Training information, their language knowledge and their skills and interests. Students can search for traineeships by keywords and refine their search till they find and offer that matches their demands.

Companies and Organisations can publish their traineeship offers and search for trainees. If they find a trainee that they think is suitable for their internship they can be in direct contact. All this is completed by a full social media integration and an extremely easy to use interface.

The project has been developed under the Lifelong Learning Programme of the European Union and aims at supporting young people to have a mobility experience abroad by giving them easy access to companies all around Europe.

This exciting Web platform has been developed by the **Erasmus Student Network (ESN)**, a non-profit international student organisation with the mission to represent international students, thus provide opportunities for cultural understanding and self-development under the principle of **Students Helping Students**. ESN has **13.500 members** from **460 local associations** in **37 countries** working on a volunteer basis in Higher Education Institutions. ESN offers its services to **more than 180.000 students** annually.

If we could excite you to learn more about this brand new web platform and quality internships please visit our website: [erasmusintern.org](http://erasmusintern.org).
