

THE EUROPEAN MARKETING FORCE

You've got the product, we will tap new markets for you

Internship in Toulouse FRANCE / Girona SPAIN / Nottingham UK

The Company

Stipje is an organisation set up by students and working with students from all over Europe. We provide a range of marketing and promotion services for small and medium sized companies in order to help them to promote their products or services all over Europe. The industries we focus on are software, education and hi-tech services companies. We have offices in the United Kingdom, France and Spain and have students working with us from almost every European country.

The Activities

As an Intern in IT Development you will get involved in:

- Development of our internal, web-based software
- Back-end database construction and maintenance
- Mobile application and interface development

The Profile

As we are a modern distributed company working with students from many different nationalities we require an interest in different cultures and a high level of flexibility, tolerance and team spirit. English is the language we are using all over the company in each office and you must therefore have a ***good level of spoken and written English***.

Our applications are written in Delphi, Java/Android, PHP, and MySQL. A good command of one or more of these languages is a must.
