

# SCHOOL OF PHYSICAL THERAPY AND REHABILITATION

## OUR MISSION

Our school's mission is to be a reputable educational and research institution preferred at both national and international level, which examines and treats the patients by planning the patient's physiotherapy program in all cases where the movement and function are affected; applies preventive methods and treatments for the independence of the disabled in daily life; trains physiotherapists who make recommendations and offer exercises that prevent disability and increase physical fitness.

The goal of the institution is to train physiotherapists who follow the ethical values in line with Atatürk's principles and reforms, who are researchers, contemporary, respectful of human rights, and skillful.

## PROMINENT TECHNICAL FACILITIES :

Conference Hall, Library, Computer Laboratory, Practical Application Halls, Prosthetics - Orthotics Workshop, Walking Analysis and Virtual Reality Laboratories

## PROMINENT EDUCATION PROGRAMS :

Erasmus+ and Farabi Exchange Programs

Purpose of our school is to train physiotherapists who have a global understanding and ethical values, who can think critically, who can contribute to profession and science in the field at national and international level, have adopted life-long learning principle and have knowledge and skills about current physiotherapy applications. With cardiopulmonary physiotherapy and rehabilitation, musculoskeletal physiotherapy, neurological rehabilitation, orthopedic physiotherapy, rehabilitation of prosthesis-orthosis and geriatric rehabilitation, education and academic studies continue at undergraduate and graduate levels effectively.

In our school, language of instruction is Turkish. 30% of optional elective courses are in English. At the same time, there is a 1-year preparatory program in English, which is optional. Teaching and learning is done with course-passing systems. Relative grading system is applied.
