Short Description of the Company	<p>ISC is a Brussels-based communication agency specializing in science, technology and R&amp;D research and policy. ISC provides intelligence on science and innovation policy and programs and has over a decade of experience in innovation policy and science communication at European and international level. The development of science and innovation policy in Europe today takes place in a complex institutional setting. The web of actors that contribute to innovation policy ranges from EU and international level to national level to private entities and the media. With</p>

	<p>such a diverse structure of opportunity, it is vital for all of those in the science and technology community – from policymakers to researchers - to equip themselves with an effective communications strategy.</p> <p>ISC serves science and technology communities to build an understanding of their research and innovation activities amongst citizens, industry, media and decision-makers. ISC expertise is utilized by policymakers, scientific and contract research organizations, industry, intellectual property professionals, academic institutions, technology transfer experts and many others involved in R&amp;D and innovation processes.</p>
