A FIRST IN TÜRKİYE: FLAGOLOGY AND TURKISH FLAGS MUSEUM

“A flag is a symbol of a nation's existence and independence and a memory of its history. Its value goes beyond the fact that it is made of cotton, atlas and silk. The flag is respected because it represents the sovereignty, independence and honor of the state.”

With these feelings and thoughts, Türkiye's first national flag museum was opened by the Rectorate of our University on September 9, 2020, based on September 9, 1922, the day of Izmir's liberation from enemy occupation.
